<b>Double in F</b>	\$450	\$550	\$625+L	N/A

“L” (Layered) means that the wood I have in this species is not thick enough for that size ocarina, and it will have to be laminated with other woods to build up the thickness. Any of the other woods can also be laminated for an additional cost of \$60. This lamination works well and does not affect the tone of the instrument. Multiple woods create a striking appearance as shown in the ocarina above. The Zelda Triforce symbol made of Yellowheart can be inlaid for an additional \$60.
